## 2023 ROSÉ OF GRENACHE SHENANDOAH VALLEY OF CALIFORNIA

Alluring aromas of passion fruit, white peach, fresh strawberry, and a slight hint of orange zest. The palate is light and crisp with passion fruit flavors and medium length finish.

### Production Notes

Whole cluster press to tank for a two-day cold settle. Racked off primary lees and inoculated with yeast. Fermented and aged for six months in stainless steel drums.

**California Shenandoah Valley** The California Shenandoah Valley is the oldest growing region in the broader Sierra Foothills Appellation. It is the most western and lowest elevation of its sister appellations, and warm climate varietals benefit from substantial summer heat. The hilly terrain and poor water holding capacity

produce wines of richness and structure. The soil profile for much of the valley is decomposed granite derived from the Sierra Nevada mountain range, as well as sandy loam. The high iron content gives the soil a rusted color.

### Food Pairings

Avocado toast.

### Technical Data

TA: 5.3 g/L  
pH: 3.28  
Alcohol %: 13.0%  
Case Production: 65 cases  
MSRP: \$35  
Drinkability: 2024-2026  
for maximum freshness
